\* These images represent the available designs.

# ABOUT THE DESIGNS

Heavy on black lines and contrast, the drawing that made its way to t-shirt, sweatshirt and totebag land features obvious musical and tech references evident in the presence of musical instruments, notes and the ubiquitous symbol of the click-click kingdom - the computer screen and keyboard. The clenched fist of the punk driven, hip hop fan also made its way to the drawing.

A

B

C

A. The SeeK Happiness Pirate. I created this character from some vector shapes I created from an illustration I made last year. The vector shapes are part of the CurvyLine Army mix I am creating. The army can be seen at [www.seekproject.com/downloads.html](http://www.seekproject.com/downloads.html)

B. Geo- shape mix. I love geometry and the plethora of images you can create out of shapes. This offering is one of such images.

C. The SeeK symbol is my art and design alter ego. I Will put out a document detailing how the symbol got created some time soon.
